Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes

Auditor's Responsibility, continued

evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net position of the Kentucky League of Cities Funding Trust Lease Program Revenue Bonds as of June 30, 2021 and 2020, and the changes in its net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 4 - 5 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplementary information on pages 30 - 37 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 15, 2021 on our consideration of the Trust Estates' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust Estates' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust Estates' internal control over financial reporting and compliance.

Management's Discussion and Analysis (*Unaudited*)

Our discussion and analysis of the Kentucky League of Cities Funding Trust Lease Program Revenue Bonds (the Trust Estates or the Organization) provides an overview of the Organization's financial activity for the fiscal year ended June 30, 2021. It should be read in conjunction with the consolidated financial statements, which begin on page 6.

Using this Annual Report

This report consists of a series of financial statements. The consolidated statements of net position on page 6 provide information about the Organization as a whole.

Statements of Net Position

Table 1 shows all of the assets and liabilities of the Organization and is presented on the accrual basis.

KENTUCKY LEAGUE OF CITIES FUNDING TRUST LEASE PROGRAM REVENUE BONDS

Notes to the Combined Financial Statements

1. Nature of Organization and Operations

The Kentucky League of Cities (KLC, or the Program Administrator) is a voluntary association of cities created in 1927 to assist municipal officials in representing the interest of cities and to provide services to members fostering improved municipal government in Kentucky.

The financial services department of the Kentucky League of Cities provides tax-exempt financing to Kentucky cities. By taking advantage of economies of scale through tax exempt bond pools, the financial services department provides its members access to low interest rate loans to fund capital improvement projects and equipment purchases (the Lease Program).

In December 1992, certain governmental agencies of the state entered into an Interlocal Cooperation Agreement pursuant to KRS 65.210 through 65.300, KRS 58.010 through 58.140, and KRS 65.940 through 65.956 (the Act), which authorized the creation of the Kentucky League of Cities Funding Trust (the Funding Trust). The Funding Trust issues tax-exempt bonds in order to provide funding for leases to participating members at variable rates of interest.

The Funding Trust is governed by a Board of Trustees consisting of five members. At the time of appointment, members of the Board of Trustees are required to be an elected or an appointed official of a Kentucky city.

To facilitate the purposes of the lease program, several Kentucky municipalities (the Issuers) issued seven variable rate Kentucky League of Cities Funding Trust Lease Program Revenue Bonds (the Bonds). Each series had an original issue amount of \$50,000,000 and each series was backed by letters of credit.

In fiscal year 2016, the bond pools were restructured. The letter of credit issuer (US Bank) elected to not renew these letters of credit; rather, they decided to buy the bonds. As each pool was restructured, all of the Bonds were mandatorily tendered at various times from November 2015 to April 2016. All investments in the Debt Service Reserve funds were sold and the proceeds, along with other excess cash, were used to reimburse the letters of credit for the tender draws. Any excess funds in the pools were transferred to the Program Discretionary Fund. The Issuers issued new bonds in the amount of the leases outstanding. The leases outstanding will always approximate bonds outstanding (plus/minus the timing of the payments), as principal payments received on the leases are immediately used to pay down the bonds. The bonds are no longer publicly held or traded. After the restructure, each pool was split into two different bonds: Series A1 and Series A2 - the Series A1 contain variable rate leases; the Series A2 contain those leases which have interest rate exchange agreements.

2008B Trust Estate	City of Williamstown, KY	2008 Series B - A2	March 2016	July 2034

The Trust Estates are defined as all the rights, title, and interest of the Issuers and the Funding Trust in and to (i) the leases, (ii) any interest rate exchange agreements, (iii) the lease rental payments due under the leases, (iv) the collateral documents related thereto, if any, (v) all monies and securities, including earnings thereon, held in the funds and accounts created in the Trust Indenture Agreements (the Trust Indentures) other than the Rebate Account and the Program Discretionary Account (see Note 6), and (vi) all property rights, and assets of any kind and nature that are now or hereafter from time to time pledged, assigned, or transferred as and for security under the Trust Indentures by the Issuers or the Funding Trust or by anyone on their behalf or with written consent.

Upon the ultimate termination of each Trust Estate any assets remaining after satisfaction of all Trust Estate liabilities will be returned to the Funding Trust.

2. Summary of Significant Accounting Policies

The combined financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) which require management to make estimates and assumptions that affect the reported amounts and disclosures in the combined financial statements. Actual results could differ from those estimates. The following is a summary of the significant accounting policies consistently followed by the Trust Estates in the preparation of its combined financial statements:

KENTUCKY LEAGUE OF CITIES FUNDING TRUST LEASE PROGRAM REVENUE BONDS

Notes to the Combined Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Basis of Presentation

The combined financial statements of the Trust Estates are presented in conformity with GAAP as applied to government units. Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. As a proprietary activity, the Trust Estates has adopted GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. Therefore, the Trust Estates follows GASB pronouncements and all Financial Accounting Standards Board and predecessor boards' pronouncements except those that conflict with or contradict GASB pronouncements.

Investments Held by the Trustee

All invested funds are held by the Trustees (see Note 3). The Trustees are mandated by the Trust Indentures as to the types of investments in which each Trust Estate can be invested. GAAP requires that investments in equity securities with readily determinable fair values and all investments in debt securities be measured at fair value. Accordingly, all invested funds held by the Trustees are stated at fair value based on the Trustees' independent valuation services.

Cash and Cash Equivalents

The Funding Trust considers all highly liquid investments with an original maturity of three months or less to be cash equivalents. Cash equivalents primarily consist of money market funds invested in government and government agency securities.

Lease Agreement Receivables

Lease agreement receivables represent the principal obligation of the lease program participants. Accordingly, the lease agreement receivables balance as of June 30, 2021 and 2020 are stated at the amount the Funding Trust expects to collect on the outstanding balances. Lease agreement receivables are written off as uncollectable if no payment is received after all collection efforts have been exhausted. Receivables are reviewed for collectability when they become past due and an allowance for doubtful accounts is established, if deemed necessary.

Any lease rental payment that is not paid within ten days of the date due bears interest at the late payment rate as defined in the lease agreement. Failure by the lessee to pay any lease rental payments at the time specified in the lease agreement is considered to be past due. An allowance for doubtful accounts is not reflected in these combined financial statements as the Funding Trust considers all lease agreement receivables to be fully collectible. The income from the lease agreement receivables is representative of the interest income on the leases recognized and the participants' share of administrative, credit, issue, and fiduciary fees of the lease programs.

KENTUCKY LEAGUE OF CITIES FUNDING TRUST LEASE PROGRAM REVENUE BONDS

Notes to the Combined Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Costs of Debt Issuance

Costs of debt issuance related to the bond issuance are capitalized and amortized over the life of the related bond issues using the straight line method. As part of the 2016 bond pools restructuring (see Note 1), originally capitalized debt issuance costs were written off as loss on early extinguishment and \$682,519 of new debt issuance costs were capitalized. Amortization expense of bond issuance costs for both of the years ended June 30, 2021 and 2020 and for each of the next five years are as follows:

2000 Trust Estate	\$	6,114
2002 Trust Estate		5,614
2002A Trust Estate		5,423
2004A Trust Estate		4,657
2006A Trust Estate		4,388
2008A Trust Estate		4,289
2008B Trust Estate		<u>5,411</u>
	\$	<u>35,896</u>

Derivative Financial Instruments

The Funding Trust accounts for interest rate exchange agreements in accordance with GAAP which establishes accounting and reporting standards requiring that every derivative instrument (including certain derivative instruments embedded in other contracts) be recorded in the statements of net position as either an asset or liability measured at its fair value.

Deferred Issuance Costs

As the participating members originate leases in the Lease Program, the issuance costs they pay related to those leases are deferred and amortized to income straight-line over the life of the related lease.

COVID-19

In March 2020, the World Health Organization declared the coronavirus (COVID-19) outbreak to be a pandemic. COVID-19 continues to spread across the globe and is impacting worldwide economic activity and financial markets. The Funding Trust is closely monitoring the impact of the COVID-19 pandemic on all aspects of its operations. The continued spread of the disease represents a significant risk that operations could be disrupted in the near future. The extent to which COVID-19 impacts the Funding Trust will depend on future developments, which are highly uncertain and cannot be predicted.

Subsequent Events

The Trust Estates' management evaluates events and transactions that occur after the statements of net position date as potential subsequent events. This evaluation was performed through November 15, 2021, the date on which the combined financial statements were available to be issued.

3. Contractual Agreements

Administrative Services

Pursuant to the program administration agreements, the Program Administrator provides administrative services to the Funding Trust. These administrative services include professional, administrative, and financial functions, including providing personnel necessary for the orderly and proper administration of the Funding Trust and its lease program.

The following is a summary of the date of execution for each of the Trust Estates' program administration agreements.

<u>Trust Estate</u>	<u>Date of Execution</u>
2000 Trust Estate	March 2000
2002 Trust Estate	April 2002
2002A Trust Estate	October 2002
2004A Trust Estate	June 2004
2006A Trust Estate	March 2006
2008A Trust Estate	July 2008
2008B Trust Estate	December 2008

The Program Administrator bills the Trust Estate an administration fee for providing these services. The administration fee is equal to .25% of the aggregate unpaid principal components of all lease rental payments. This fee is payable from and only to the extent funds are available in the Trust Estates' Revenue Accounts (see Note 6) or otherwise available from the Trust Estates. The costs of these services are included as a component of administrative and trustee fees in the accompanying combined statements of revenues, expenses and changes in net position. The lessees reimburse the Trust Estates for the cost of these services by paying a monthly administrative fee in addition to lease interest. These fees are included as a component of income from lease agreement receivables in the accompanying combined statements of revenues, expenses and changes in net position.

The program administration agreements expire upon the earlier of the date the Bonds are fully redeemed or the date specified in a 30 days prior written notice of termination delivered by the Funding Trust to the Program Administrator.

Trustee Services

The Trustees, dates of applicable trust agreements, and annual trustee fees are summarized below:

<u>Trust Estate</u>	<u>Trustee</u>	<u>Date of Trust Agreement</u>	<u>Trustee Fee</u>
2000 Trust Estate	U.S. Bank National Assn.	March 2016	\$700 per lease payable in arrears
2002 Trust Estate	Huntington National Bank	February 2016	\$250 per lease payable in advance
2002A Trust Estate	Huntington National Bank	November 2015	\$250 per lease payable in advance
2004A Trust Estate	U.S. Bank National Assn.	April 2016	\$700 per lease payable in arrears
2006A Trust Estate	Bank of New York Mellon	February 2016	\$300-\$1,000 per lease outstanding
2008A Trust Estate	Bank of New York Mellon	December 2015	\$200-\$1,500 per lease outstanding
2008B Trust Estate	U.S. Bank National Assn.	March 2016	\$700 per lease payable in arrears

The Trustees for the Trust Estates hold investments, receive lease rental payments, maintain appropriate books and records to account for all funds established under the Trust Indentures, and conduct other transactions as directed by the Program Administrator. In return for the services provided by the Trustees, the Trust Estates pay annual trustee fees. The annual fees are a component of administrative and trustee fees in the accompanying combined statements of revenues, expenses and changes in net position.

4. Fair Value of Financial Instruments

GAAP requires fair value information for financial instruments. Certain financial instruments, such as lease contracts, are specifically excluded. The fair values of the Trust Estate's assets and liabilities that qualify as financial instruments approximate the carrying amounts presented in the accompanying combined statements of net position.

The fair value provisions of GAAP establish a single authoritative definition of fair value, set out a framework for measuring fair value, and require additional disclosures about fair value measurements. GAAP also establishes a fair value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels. These levels, in order of highest to lowest priority, are described below:

- Level 1: Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

KENTUCKY LEAGUE OF CITIES FUNDING TRUST LEASE PROGRAM REVENUE BONDS

Notes to the Combined Financial Statements, continued

4. Fair Value of Financial Instruments, continued

- Level 3: Unobservable inputs that are supported by little or no market activity and are significant to the fair value of the assets or liabilities. Level 3 includes values determined using pricing models, discounted cash flow methodologies, or similar techniques reflecting the Funding Trust's own assumptions.

The availability of observable inputs can vary from instrument to instrument and is affected by a wide variety of factors, including, for example, the type of instrument, the liquidity of the markets, and other characteristics particular to the instrument. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The following is a description of the valuation methodologies used for assets and liabilities of the Trust Estates measured at fair value:

Interest Rate Exchange Agreements

At the direction of the respective lessee, the Trustees have entered into interest rate exchange agreements to hedge against changes in the fair value of underlying fixed-rate lease agreement receivables (see Note 9). These are over-the-counter agreements and identical agreements may not be available on the active market. The swap values are determined based on comparing the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index forward rate curve with the fixed rates on the lease agreement receivables. The fair values of the swap contracts approximate the carrying value of these financial instruments (Level 2). The Trust Estates' interest rate exchanges, measured at fair value, were an unfavorable \$12,551,122 and \$9,310,236, as of June 30, 2021 and 2020, respectively.

5. Concentrations of Credit Risk

Financial instruments that potentially subject the Trust Estates to concentrations of credit risk consist primarily of temporary cash investments, the repurchase and investment agreements, lease agreement receivables, and the interest rate exchange agreements (see Note 9).

As indicated in Notes 2 and 6, the Trust Estates' cash equivalents consist of money market funds maintained by the Trustees. Money market funds are not federally insured by the federal deposit insurance corporation but do hold government and government agency securities and the financial institutions managing the money market funds are major financial institutions with an investment grade credit rating. Consequently, the Funding Trust considers the risk associated with these money market funds to be minimal.

5. Concentrations of Credit Risk, continued

The stated interest rates, terms, and principal amounts pertaining to the repurchase and investment agreements (the Agreements) (see Note 6) are generally correlated in such a way that changes in market interest rates should not have a material net impact on the values of the Agreements. The repurchase and investment agreements held by the Trustees are uninsured and unregistered. However, the government securities underlying the Agreements are registered. The Agreements are collateralized in obligations of the United States and its agencies. Such collateral is held in the Trustee's name by a custodial agent for the term of the Agreement. The custodial agents are as follows:

<u>Trust Estate</u>	<u>Custodial Agent</u>
2000 Trust Estate	Norwest Bank Minnesota
2002 Trust Estate	The Bank of New York
2002A Trust Estate	U.S. Bank
2004A Trust Estate	The Bank of New York
2006A Trust Estate	The Bank of New York
2008A Trust Estate	Wells Fargo Bank, N.A
2008B Trust Estate	Wells Fargo Bank, N.A.

As indicated in Note 7, the lease agreement receivables represent the obligations of the lease program participants. Under Kentucky law, such program participants cannot commit to long-term debt, and therefore, lease rental payments are subject to annual appropriation. Historically, program participants have not defaulted or withdrawn from such long-term lease agreements. The Funding Trust believes that certain processes and precedents are in place to provide reasonable assurance that the leases will be honored by the program participants as long-term, non-cancelable agreements.

Lease agreement receivables from one lessee totaled approximately \$12,659,606 and \$13,245,091 as of June 30, 2021 and 2020, respectively, representing 27% and 23% of total lease agreement receivables at each year end. Lease agreement receivables from four additional lessees represent 9% (two leases), and 7% (two leases) of total lease agreement receivables as of June 30, 2021. Lease agreement receivables from four additional lessees represent 12% (one lease), 8% (two leases), and 6% (one lease) of total lease agreement receivables as of June 30, 2020.

6. Trust Estate Accounts

Pursuant to the issue of the Bonds, the Funding Trust entered into Trust Indentures with the Trustees. The Trust Indentures provide for the issuance of the Bonds and the establishment of the following accounts/funds to be held by the Trustees:

Bond Proceeds Account

This account was initially funded by the \$50,000,000 in bond proceeds per each bond issuance. The account subsequently funded the Project Account, the Expense Account, the Revenue Account, and the Debt Service Reserve Account. The amounts of the initial funding of these accounts for each Trust Estate are listed below:

	Project Account	Expense Account	Revenue Account	Debt Service Reserve Account	Total
2000 Trust Estate	\$ 44,355,000	\$ 645,000	\$ -	\$ 5,000,000	\$ 50,000,000

2008B Trust Estate	44,200,000	723,000	77,000	5,000,000	50,000,000

Project Account

This account was established from bond proceeds to fund the lease programs. In connection with each closing for the lessee, the Trustees create in the Project Account a Lessee Acquisition Account for the lessee and, upon the submission by the lessee of the documents required by and upon the terms and conditions of the lease agreement, the Trustees deposit in a Lessee Acquisition Account an amount equal to the aggregate principal component of lease rental payments under the lease.

The funds in the Lessee Acquisition Account are disbursed to acquire, install, or construct the projects to be leased to the lessee or refund, refinance, and reimburse the lessee for outstanding indebtedness incurred or advancements made for the costs of the project, subject to the limitations set forth in the Trust Indentures regarding refunding, refinancing, and reimbursement. Legal title to the project and all interests therein are held by the lessee subject to the Funding Trust's rights under the provisions of the lease agreement.

Redemption Account

This account is funded by the principal component of any lease rental payment that is not related to a draw on the Debt Service Reserve Account, to the extent deemed necessary by the Trustees, in accounts thereof, for particular Bonds to be redeemed.

Revenue Account

This account is funded by the portion of all lease rental payments representative of interest and the administrative, credit, and fiduciary fees which are required by the provisions of the leases to be deposited in the Revenue Account, and any other amounts received by it under the Trust Indentures which are not required to be otherwise deposited into other accounts. The account disburses monies to pay interest on the Bonds, the credit and fiduciary fees pertaining to the Bonds, and the administrative expenses and fiduciary fees in excess of the amounts disbursed from the Expense Account.

Expense Account

This account was established from bond proceeds for the purpose of paying the costs of issuance and subsequent administrative expenses and fiduciary fees, until exhausted.

Principal and Interest Account

The principal and interest account is an internal account of the Trustee that is used to capture both principal and lease payments.

Program Discretionary Fund Account

This account holds funds identified by the Program Administrator as being excess funds. Monies in the Program Discretionary Fund Account are disbursed on the direction of the Funding Trust for purposes specified by the Funding Trust and, ultimately, are not a part of the individual Trust Estates.

Prepayment Account

This account is used to hold lessees' optional lease prepayments. The principal component of each prepayment is transferred to the Redemption Account to redeem the portion of the Bonds associated with the lessees' prepayment.

Debt Service Reserve Account

This account was established from bond proceeds to be applied if there is a deficiency in the amount available in the Revenue Account to pay interest or the Redemption Account to pay principal on the Bonds (or in either case to reimburse the Credit Facility Provider for such payment).

Rebate Account

This account is used to pay arbitrage rebates, if any, pursuant to section 148 of the Internal Revenue Code. Funds necessary to satisfy the rebate requirement are transferred from other accounts at the written discretion of the Issuers.

7. Lease Agreement Receivables

Lease agreement receivables represent the obligation of the lease program participants and provide for payment by the participants to the Trust Estate of monies sufficient to pay, when due, the principal and interest on the bonds and the costs associated with the lease program. All leases are issued as variable rate leases, which may be converted to fixed rate leases through an interest rate exchange agreement (see Note 9). The lease rental payment is computed with respect to variable rate bonds and the interest rate in effect on the first day of each week during the fiscal year, unless the lessee elects to have the interest rate converted to a fixed rate upon the terms and conditions of an interest rate exchange agreement (see Note 9).

8. Bonds Payable

As described in Note 1, the Issuers issued fourteen variable rate bonds in the amounts of the related leases outstanding. The bonds are supplemental trust indentures and are between the various Issuers, US Bank and the Funding Trust securing the Bonds (the Trust Indentures). The Trust Indentures are adjustable interest rate bonds adjustable each Wednesday. The interest rate is equal to the sum of the Applicable Spread plus the Securities Industry & Financial Markets Association (SIFMA) Index (as defined in the Trust Indentures). Applicable Spread means, for (i) Series A1 Bonds, (A) from the Current Conversion Date to but not including the third anniversary of the Current Conversion Date, eighty-seven basis points (0.87%, 1.14% for Williamstown B), and (B) from and after the third anniversary of the Current Conversion Date, one hundred twenty-five basis points (1.25%, 1.75% for Williamstown B) until the Initial Mandatory Tender Date and thereafter as provided in the Trust Indenture and (ii) Series A2 Bonds, fifty-three basis points (0.53%, 0.90% for Williamstown B) until the Initial Mandatory Tender Date and thereafter as provided in the Indenture.

The bond payment dates are the first business day of each month for all the Trust Estates.

9. Interest Rate Exchange Agreements

The interest rate exchange agreements, entered into when lessees convert variable rate leases to fixed rate leases, are derivative instruments. The Funding Trust utilizes interest rate exchanges to provide fixed rate leases to lessees without bearing interest rate risk (see also Note 7). Under the terms of the agreements, the Funding Trust pays to the exchange counterparty the agreed fixed rate and receives interest based upon an agreed variable indexed rate. These interest rate exchange agreements have been designated by the Funding Trust as fair value hedges of the underlying changes in the fair value of the lease agreement receivables. The net interest payments made (received) under the swap exchanges (settlements) are included as a component of interest expense (income). Cash flows from interest rate exchanges are classified as an operating activity on the combined statements of cash flows.

Under the lease agreement, the lessee is ultimately responsible for any payments associated with

KENTUCKY LEAGUE OF CITIES FUNDING TRUST LEASE PROGRAM REVENUE BONDS

9. Interest Rate Exchange Agreements, continued

the early termination of an interest rate exchange agreement. Changes in the fair value of the exchange instruments result in offsetting changes to the carrying value of the underlying lease instruments with no impact on the combined statements of revenues, expenses and changes in net position as long as the hedges remain effective.

Under the interest rate exchange agreements, the Funding Trust pays a fixed rate of interest and receives a variable rate tied to the SIFMA Municipal Swap Index. During 2021 and 2020, the Trust Estates made net settlement payments under these exchanges as follows:

Trust Estate	2021	2020

The Funding Trust is exposed to credit losses in the event of non-performance by the exchange counterparty. However, the Funding Trust anticipates that the exchange counterparty will be able to satisfy any obligations under the agreement. The Funding Trust does not obtain collateral or other security to support such derivative financial instruments, however, the Trustee does monitor the credit standing of the exchange counterparty.

10. Tax Status

All funds are considered to be property of the agencies participating in the lease program. The Funding Trust intends to be an instrument of the participating agencies and will only execute essential government functions. As such, the income of the Trust Estates is exempt from federal and state income taxes. Accordingly, no provision for income taxes has been made in the accompanying combined financial statements.

11. Related Party Transactions

The Trust Estates pay administrative fees to the Program Administrator. During the years ended June 30, 2021 and 2020, administrative fees paid to the Program Administrator included in administrative and trustee fees in the accompanying combined statements of revenues, expenses and changes in net position were \$115,075 and \$133,646, respectively. No administrative fees were included in accounts payable at June 30, 2021 and 2020.

During the year ended June 30, 2010, the 2008A and 2008B Trust Estates entered into lease agreements with the Program Administrator to finance costs to renovate the Program Administrator's office building. The total balance of these lease agreement receivables is \$1,273,146 and \$1,605,292 as of June 30, 2021 and 2020, respectively.

In June 2020, \$374,188 of program discretionary funds were transferred to the Program Administrator. There were no funds transferred in fiscal year 2021. As referenced in Note 6, the program discretionary fund account is not part of the individual Trust Estates.

**Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements Performed
in Accordance with *Government Auditing Standards***

Report of Independent Auditors

Board of Trustees
Kentucky League of Cities Funding Trust
Lexington, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the combined financial statements of Kentucky League of Cities Funding Trust Lease Program Revenue Bonds (the Trust Estates), as of and for the year ended June 30, 2021, and the related notes to the combined financial statements, which comprise the Trust Estates' basic financial statements, and have issued our report thereon dated November 15, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Trust Estates' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust Estates' internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust Estates' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Trustees
Kentucky League of Cities Funding Trust
Report of Independent Auditors, continued

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Trust Estates' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust Estates' internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust Estates' internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
