

PERSONNEL POLICY SERVICES

It's our policy to make it personal.

Complicated personnel issues can stump even the most seasoned city officials.

Remember:

You're only **HUMAN**.

You need **RESOURCES**.

Cities are unique. When it comes to personnel issues, you need someone who not only has expertise in personnel law and human resource matters, but someone who knows municipal law as well. KLC can offer this expertise in a way that is specific to your city needs. Whether it is creating or reviewing city personnel policies or providing training on your city policies or on a variety of specialized HR topics, we have you covered.

Kentucky League of Cities Insurance Services members receive up to a 40% discount on KLC Personnel Policy Services. Our goal is to help your city reduce claims and lower liability. Participation in this program also impacts the KLC Insurance Services loss control safety and liability review.
