### **Report on the Audits of the Financial Statements**

#### ***Opinions***

We have audited the financial statements of Kentucky League of Cities Workers' Compensation Trust (the Trust), which comprise the statements of net position as of June 30, 2024 and 2023, the related statements of revenues, expenses and change in net position and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Trust as of June 30, 2024 and 2023, and the change in its net position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

#### ***Basis for Opinion***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audits of the Financial Statements section of our report. We are required to be independent of the Trust and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditor's Responsibilities for the Audits of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing audits in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Trust's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

***Required Supplementary Information***

GAAP requires that the Management's Discussion and Analysis on pages 4 - 6 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that comprise the Trust's basic financial statements. The supplementary information on page 27 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplemental information required by the Department of Insurance of the Commonwealth of Kentucky. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report on October 14, 2024 on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control over financial reporting and compliance.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

### Management's Discussion and Analysis (*Unaudited*)

Year ended June 30, 2024

Our discussion and analysis of the Kentucky League of Cities Workers' Compensation Trust (the Trust) provides an overview of the Trust's financial activity for the fiscal year ended June 30, 2024. It should be read in conjunction with the financial statements, which begin on page 7.

#### Using this Annual Report

This report consists of the financial statements, notes to the financial statements, and supplemental information.

#### Statements of Net Position

Table 1 shows all the assets and liabilities of the Trust and is presented on the accrual basis of accounting. Total net position increased \$8,662,713 for the current fiscal year primarily due to strong investment earnings and fewer reported claims, resulting in an overall increase in net position of \$36,833,257 since 2015. This growth in surplus better positions the Trust in the event of possible adverse claims development while at the same time providing more rate stability for members.

**Table 1**  
**Net Position**

	<u>2024</u>	<u>2023</u>
Cash and investments	\$ <b>71,048,004</b>	\$ 66,034,608
Capital and other assets	<u>3,116,784</u>	<u>3,418,496</u>
Total assets	<b>74,164,788</b>	69,453,104
Unpaid losses and loss adjustment expenses	<b>30,512,136</b>	33,173,752
Other liabilities	<u>1,874,183</u>	<u>3,163,596</u>
Total liabilities	<u><b>32,386,319</b></u>	<u>36,337,348</u>
Net position	<u><b>\$ 41,778,469</b></u>	<u>\$ 33,115,756</u>

#### Statements of Revenues, Expenses and Change in Net Position

Table 2 shows the revenues and expenses of the Trust and is also presented on the accrual basis of accounting. Net earned premium revenue decreased \$80,400, or 0.6% due to an increase in reinsurance cost, from the prior fiscal year. Investment and other revenues resulted in a \$6,428,161 gain. Favorable investment yields for the unrealized investments account for most of the significant change. as part of KLCWCT's investment strategy, a request for proposal process was conducted, resulting in the selection and hiring of New England Asset Management to manage the fixed income investments. Losses and loss adjustment expenses decreased \$2,137,680. Prior year results developed at lower than expected amounts. The Trust continues to focus efforts on reducing medical costs and reducing the number of new claims as discussed in the following paragraph.

Change in net position	\$ <u><b>8,662,713</b></u>	\$ <u>4,274,667</u>

### Description of Current and Expected Conditions

As of December 15, 2013, the Trust started using internal staff to adjust workers' compensation claims. The Trust still utilizes the services of a third-party administrator to adjust post award claims. There has been a significant reduction in the number of newly reported litigated claims since bringing claims handling in house. Loss Control visits continue to focus on members with higher frequency of losses and include quarterly claims reviews with these members to help prevent future losses. All prior year claims are now reserved at a projected level sufficient to cover all expected future benefit obligations. This change from projecting ten years of future medical costs to lifetime estimates has been implemented over the past several years. All claims have been reviewed and revised based upon current information.

A third-party telephonic nurse case manager has been engaged to compliment the current use of field case managers and to further assist in controlling escalating medical costs. Also, a managed care organization was implemented effective July 1, 2016. Under this system, the Company Nurse has become mandatory for all members to report claims. A nurse triages the injury on the front end to help direct the employee to the most appropriate level of care. The Trust also contracted with a third party to provide in-office nurse case management for routine injuries and field nurse case management for serious injuries. In addition, an approved Preferred Provider Network of physicians was developed for the treatment of work-related injuries. The Trust's efforts continue to focus on reducing reported claims, efficiently closing claims, and managing medical costs. These changes have been crucial to the improved results for recent years. Management anticipates that these changes will continue to strengthen and improve the long-term results of the Trust's program.

# KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

## Notes to the Financial Statements

### 1. Description of Organization

Effective July 1, 1978, the Kentucky Association of Counties (KACo) and the Kentucky League of Cities, Inc. (KLC) formed the KACo-KLC Self-Insurance (KACo-KLC Fund). The KACo-KLC Fund was formed as a joint city/county group workers' compensation self-insurance fund.

Effective June 30, 1993, the KACo-KLC Fund ceased writing new business. In July 1, 1993, both KACo and KLC formed new, separate group workers' compensation self-insurance funds for their respective members. Kentucky League of Cities Workers' Compensation Trust (the Trust) was established under the authorization of the Kentucky Interlocal Cooperation Act of the Kentucky Revised Statutes. It is an unincorporated, nonprofit trust voluntarily established by the participating cities, urban-county governments and related public agencies and political subdivisions within the Commonwealth of Kentucky.

The Trust has received a Certificate of Filing from the Department of Insurance of the Commonwealth of Kentucky (the Department) but is exempt from most statutory requirements that commercial insurers must follow. The Trust's general objectives are to formulate, develop and administer, on behalf of the member political subdivisions, a workers' compensation insurance program and to obtain lower costs for that coverage. All coverages are written on an occurrence basis. Participation in the Trust included 385 and 382 members as of June 30, 2024 and 2023, respectively.

On July 1, 1995 the assets, liabilities, and responsibility for effective claims administration stemming from existing open claims obligations of the KACo-KLC Fund were divided proportionally between the KACo Fund and the Trust. The Trust's portion of the KACo-KLC Fund is known as the Prior Workers' Compensation Fund, which is now a component of the Trust.

Following is a description of the most significant risks facing property/casualty insurers and how the Trust mitigates those risks:

#### Legal/Regulatory Risk

Legal/regulatory risk is the risk that changes in the legal or regulatory environment in which an insurer operates will occur and create additional losses or expenses not anticipated by the insurer in pricing its products. That is, regulatory initiatives designed to reduce insurer profits or new legal theories may create costs for the insurer beyond those currently recorded in the financial statements. The Trust is exposed to this risk by writing all of its business in Kentucky, thus increasing its exposure to a single jurisdiction. This risk is reduced by underwriting and loss adjusting practices that identify and minimize the adverse impact of this risk.

#### Credit Risk

Credit risk is the risk that issuers of securities owned by an insurer will default or that other parties, including excess insurance carriers, that owe the insurer money will not pay. The Trust minimizes this risk by adhering to a conservative investment strategy, by utilizing financially sound excess insurance carriers, by maintaining credit and collection policies, and by providing an allowance for any amounts deemed uncollectible.

# KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

## Notes to the Financial Statements, continued

### 1. Description of Organization, continued

#### Interest Rate Risk

Interest rate risk is the risk that interest rates will change and cause a decrease in the value of an insurer's investments. The Trust mitigates this risk by attempting to match the maturity schedule of its assets with the expected payouts of its liabilities. To the extent that liabilities come due more quickly than assets mature, an insurer would have to sell assets prior to maturity and recognize a gain or loss. The Trust uses the segmented time distribution method to measure interest rate risk.

### 2. Summary of Significant Accounting Policies

#### Basis of Accounting

The Trust uses the accrual basis of accounting. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred.

The Trust presents its financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Operating revenues are those revenues that are generated from the primary operations. All other revenues are reported as non-operating revenues. Operating expenses are those expenses that are essential to the primary operations. All other expenses are reported as non-operating expenses.

#### Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Material estimates that are particularly susceptible to significant change in the near-term relate to the determination of unpaid losses and loss adjustment expenses. In connection with the determination of unpaid losses and loss adjustment expenses, management uses the methodology described later in this footnote in "Unpaid Losses and Loss Adjustment Expenses."

Management believes that the liability for unpaid losses and loss adjustment expenses is adequate. While management uses available information to estimate unpaid losses and loss adjustment expenses, future changes to the liability may be necessary based on claims experience and changing claims frequency and severity conditions, as well as changes in doctrines of legal liability and damage awards in Kentucky. The future changes will be charged or credited to expenses when they occur.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 2. Summary of Significant Accounting Policies, continued

#### Investment Securities

Investment securities include fixed maturity debt and equity securities that the Trust intends to use as part of its asset/liability management policy and securities that may be sold in response to unexpected liquidity needs.

Investment securities are stated at fair value based, generally, on quoted market prices. Changes in the fair value of investment securities are reported as nonoperating revenue. The specific identification method is used to determine the cost of securities sold. Realized and unrealized gains and losses are included in net investment income in the statements of revenue, expense and change in net position.

#### Cash and Cash Equivalents

Cash and cash equivalents consist principally of money market fund investments. For purposes of the statements of cash flows, the Trust considers all short-term investments with original maturities of three months or less to be cash equivalents.

Restricted cash and cash equivalents consist of amounts required to be set aside in safekeeping by the Department of Insurance of the Commonwealth of Kentucky. See Note 7 for further details.

#### Revenue Recognition and Accounts Receivable

In accordance with GAAP in the insurance industry, the Trust records audit premiums billed as of the fiscal year-end in which they were earned. The allowance for doubtful accounts is an amount that management believes will be adequate to absorb possible uncollectible accounts based on prior experience. Amounts are charged against the allowance when management determines that collectability is doubtful.

#### Membership in NLC Mutual Insurance Company

The membership in NLC Mutual Insurance Company is carried at cost plus allocated surplus as allowed by the Department.

#### Capital Assets

Capital assets consist of furniture and fixtures, including computer equipment and related software net of accumulated depreciation. Depreciation is calculated on the straight-line method over the estimated useful lives of the assets. Estimated useful lives range from 3-15 years.

#### Leases

Leases are contracts that convey control of a right to use another entity's nonfinancial asset (the underlying asset) for a period of time in an exchange or exchange-like transaction.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 2. Summary of Significant Accounting Policies, continued

#### Leases, continued

##### *Short-term Leases*

For leases with a maximum term of 12-months or less at the commencement date of the lease, the Trust recognizes outflow of resources as amounts become due under the lease agreement.

##### *The Trust as Lessee*

Lease liabilities on the statements of net position represent the present value of payments expected to be made during the lease term. Lease payments are discounted to present value using the rate implicit in the lease, when it can be readily determined, or the Trust's incremental borrowing rate at the commencement of the lease. In subsequent years, amortization of the discount is included in interest expense in the statements of revenues, expense and change in net position.

Variable payments based on future performance of the Trust, usage of the underlying asset or criteria other than an index or rate are not included in the measurement of the lease liability. Those variable payments are recognized as outflow of resources in the period in which the obligation for those payments is incurred.

At commencement of the lease, a right to use asset is recorded on the statements of net position in an amount equal to the corresponding lease liability plus lease payments paid by the Trust at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term. The right to use asset also includes any initial direct costs that are necessary to place the leased asset into service. The right to use asset is amortized over the shorter of the lease term or the useful life of the right to use asset.

Subsequent to the commencement of the lease, the lease liability and right to use asset are remeasured if certain criteria are met.

#### Subscription-Based Information Technology Arrangements (SBITA)

SBITAs are contracts that convey the control of the right to use another party's information technology (IT) software, alone or in combination with tangible capital assets (the underlying IT assets), as specified in the contract for a period of time in an exchange or exchange-like transaction.

##### *Short-term SBITAs*

For SBITAs with a maximum term of 12-months or less at the commencement date of the agreement the Trust recognizes an outflow of resources as amounts become due under the agreement.

# KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

## 2. Summary of Significant Accounting Policies, continued

### Subscription-Based Information Technology Arrangements (SBITA), continued

#### *SBITA Right to Use Assets and Liabilities*

The SBITA liability on the statements of net position represents the present value of payments expected to be made during the subscription term. Subscription payments are discounted to present value using the interest rate the SBITA vendor charges the Trust or the Trust's incremental borrowing rate if the SBITA vendor's interest rate is not readily determinable. In subsequent years, amortization of the discount is included in interest expense in the statements of revenues, expenses and change in net position.

Variable payments based on future performance of the Trust, usage of the underlying asset or criteria other than an index or rate are not included in the measurement of the SBITA liability. Those variable payments are recognized in the period in which the obligation for those payments is incurred.

At commencement of the SBITA, a right to use subscription asset is recorded on the statements of net position in an amount equal to the corresponding SBITA liability plus payments paid to the SBITA vendor by the Trust at or before the commencement of the subscription term, less any incentives received by the Trust from the SBITA vendor at or before the commencement of the subscription term. The right to use subscription asset also includes any capitalizable implementation costs that are necessary to place the right to use subscription asset into service. The right to use subscription asset is amortized over the shorter of the subscription term or the useful life of the right to use subscription asset.

Subsequent to the commencement of the SBITA, the SBITA liability and right to use subscription asset are re-measured if certain criteria are met.

#### Premium Revenue

Premiums for contracts are recognized as earned on a pro rata basis over the contract period. Advance premiums relate to premiums paid by members for insurance coverage for the subsequent insurance period. Policy coverage is matched with revenue so as to result in recognition of profits over the life of the policies through establishment of reserves for incurred claims. All policy years coincide with the Trust's fiscal year.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 2. Summary of Significant Accounting Policies, continued

#### Unpaid Losses and Loss Adjustment Expenses

Unpaid losses and loss adjustment expenses are based on estimates of the ultimate cost of claims (including future claims adjustment expense) that have been reported but not settled, and of claims that have been incurred but not yet reported. The length of time for which such costs must be estimated varies depending on the coverage involved. Estimated amounts of salvage, subrogation and excess insurance recoverable on unpaid claims are deducted from the liability for unpaid claims. Because actual claims cost depend on such complex factors as inflation, changes in doctrines of legal liability, and damage awards, the process used in computing claims liabilities does not necessarily result in an exact amount. Claims liabilities are recomputed periodically using a variety of actuarial and statistical techniques to produce current estimates that reflect recent settlements, claim frequency, and other economic and social factors. A provision for inflation in the calculation of estimated future claims costs is implicit in the calculation because reliance is placed both on actual historical data that reflects past inflation and on other factors that are considered to be appropriate modifiers of past experience. Adjustments to claims liabilities are charged or credited to expense in the periods in which they are made.

To reflect its present value, the liability for unpaid losses and loss adjustment expenses has been discounted at 3%. Discounting reduced the liability by \$5,886,361 and \$6,241,230 as of June 30, 2024 and 2023, respectively. The effect of discounting on the provision for losses and loss adjustment expenses was an increase of \$354,869 and \$603,018 in the years ended June 30, 2024 and 2023, respectively.

#### Excess Insurance

Excess insurance premiums, losses, and loss adjustment expenses are accounted for on a basis consistent with those used in accounting for the original policies issued and the terms of the excess insurance contracts. Premiums, losses, and loss adjustment expenses are reported net of excess insurance amounts. The Trust evaluates the financial condition of its excess insurance carriers to minimize its exposure to significant losses from reinsurer insolvencies. The Trust holds funds and collateral as security under excess insurance agreements in the form of letters of credit for any excess insurance carriers not subject to the regulation of the Kentucky Commissioner of Insurance. In the opinion of management, all amounts due from excess insurance carriers at June 30, 2024 and 2023 are recoverable.

#### Net Position

The Board of Trustees may, at its discretion, refund to members the savings, if any, resulting from operations of the Trust in the form of dividends or reduced premiums. The amount of any future dividends or reductions in premiums is dependent on the Trust's ultimate liability for claims incurred and, accordingly, the amount may differ from the net position. No refunds were issued during the years ended June 30, 2024 and 2023.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 2. Summary of Significant Accounting Policies, continued

#### Net Position, continued

In the event of adverse loss experience, the Trust can assess additional amounts to the members. An assessment would be computed and established by the Board of Trustees with each member's share being in proportion to their annual premiums relative to premiums of all members. Capital contributions are assessed at the discretion of the Board of Trustees. There have been no assessments levied since the inception of the Trust.

Net position of the Trust is classified in the following components:

*Restricted expendable* - Consists of non-capital assets that must be used for particular purpose, as specified by creditors, grantors, or donors external to the Trust.

*Unrestricted* - Unrestricted net position is the remaining net position that does not meet the definition of restricted net position.

#### Federal Income Taxes

The Internal Revenue Service has ruled that the income of the Trust is excludable from gross income, and therefore, exempt from taxation pursuant to Internal Revenue Code Section 115, which pertains to instrumentalities of state and local governments.

#### Subsequent Events

Management has evaluated subsequent events for accounting and disclosure requirements through October 14, 2024, the date that the financial statements were available to be issued.

#### Reclassifications

Certain amounts in the 2023 financial statements have been reclassified to conform to the 2024 presentation with no impact on total assets, total liabilities, net position, change in net position, or cash flows.

### 3. Deposits and Investments

The composition of the Trust's investment portfolio must meet certain criteria as set forth in the Kentucky Administrative Regulations. Investments held by the Trust as of June 30 are as follows:

	<u>2024</u>	<u>2023</u>
Deposits and investments classified as cash and cash equivalents:		
Cash and cash equivalents	\$ 1,406,127	\$ 966,130
Money market mutual funds and uninvested cash	<u>18,620,025</u>	<u>7,529,902</u>
	<b>20,026,152</b>	8,496,032
Investments classified as investment securities:		
Certificates of deposit	6,517,386	6,606,634
Corporate bonds	8,309,325	3,414,830
Equity securities	7,163,379	13,064,815
Government obligations	5,847,295	4,306,200
U.S. Government agency obligations	6,612,124	1,210,450
Municipal bonds	16,572,343	17,902,977
Equity mutual funds	<u>-</u>	<u>11,032,670</u>
	<u>51,021,852</u>	<u>57,538,576</u>
Total deposits and investments	<b><u>\$ 71,048,004</u></b>	<b><u>\$66,034,608</u></b>

As of June 30, 2024, the Trust had the following investment maturities in years:

	<u>Less than 1</u>	<u>1-5</u>	<u>6-10</u>	<u>More than 10</u>
Certificates of deposit	\$ 736,149	\$ 5,781,237	\$ -	\$ -
Corporate bonds	491,030	5,577,585	983,048	1,257,662
Municipal bonds	1,068,523	9,949,377	3,571,836	1,982,607
Government obligations	976,765	4,870,530	-	-
U.S. Government agency obligations	<u>-</u>	<u>1,720,847</u>	<u>-</u>	<u>4,891,277</u>
Total maturities	<b><u>\$ 3,272,467</u></b>	<b><u>\$ 27,899,576</u></b>	<b><u>\$ 4,554,884</u></b>	<b><u>\$ 8,131,546</u></b>

Net investment income is comprised of the following for the years ended June 30:

	<u>2024</u>	<u>2023</u>
Interest and dividend income	\$ 2,436,681	\$ 1,700,755
Net realized gains (losses) on sales of securities	5,391,414	(598,822)
Unrealized (losses) gains on securities, net	<u>(1,533,559)</u>	<u>2,816,393</u>
	<b><u>\$ 6,294,536</u></b>	<b><u>\$ 3,918,326</u></b>

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 3. Deposits and Investments, continued

#### Fair Value

Investments, including derivative instruments that are not hedging derivatives, are measured at fair value on a recurring basis. Recurring fair value measurements are those that GAAP requires or permits in the statement of net position at the end of each reporting period. Fair value measurements are categorized based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Certificates of deposit are valued at fair value. All of the Trust's other investments are actively traded and are categorized as Level 1 in the fair value hierarchy.

#### Interest Rate Risk

Interest rate risk is the risk that interest rates will change and cause a decrease in the value of an entity's investments. The Trust does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### Credit Risk

Credit risk is the risk that issuers of securities owned by an entity will default or that other parties that owe the entity money will not pay. The Trust minimizes these risks by adhering to a conservative investment strategy, by utilizing sound financial advice of reputable investment advisors, by maintaining credit and collection policies, and by providing an allowance for any amounts deemed uncollectible.

State law and the Trust investment guidelines assert that corporate bonds are allowable if issued, assumed, or guaranteed by a solvent institution created and existing under the laws of the United States of America. They also state that corporate bond investments shall not exceed 25% of the total market value of the portfolio at the time of purchase and that the bond has a minimum rating of BBB.

State law and the Trust investment guidelines assert that no individual equity holding shall comprise greater than 10% of the equity portion of the portfolio at the time of purchase. Both also state that an investment in an individual holding shall not represent at the time of purchase more than 5% of the market value of the holding. Furthermore, both state that investments in equities shall not exceed 20% of the total market value of the portfolio of the self-insurance group at the time of purchase. In addition, mutual funds that are held with registered investment advisors licensed by the Securities Exchange Commission and the Commonwealth of Kentucky to perform investment services are allowable and shall not exceed 20% of the total market value of the portfolio at the time of purchase.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 3. Deposits and Investments, continued

#### Credit Risk, continued

With respect to cash and statute defined bonds, both sets of guidelines state that, of the total investments held, no less than 50% of the total market value shall be held in cash, cash equivalents, and fixed income. Also, a minimum of 5% of the total investments shall be held in cash, cash equivalents or U.S. Treasuries and federal agency securities with a 1 year or less maturity. The Trust may also invest surplus funds or reserves not needed for current obligations in the following: U.S. government bonds, Treasury notes and T-bills or other direct obligations guaranteed by the full faith and credit of the United States of America, tax exempt obligations issued by the Commonwealth of Kentucky or its agencies with a minimum rating of BBB by any NRSRO.

Furthermore, the Trust may also invest in obligations with a minimum NRSRO rating of BBB issued by any state or any of its agencies, counties, municipalities, districts, political subdivisions, or other legal authorities within the United States of America, except that no less than fifty percent (50%) of the investments made under this provision must be in obligations issued by the Commonwealth of Kentucky, its agencies, or a county, city, district, municipality, political subdivision, or other legal authority within the Commonwealth of Kentucky. Investments may also be made in investment share accounts in a savings and loan institution in Kentucky which are insured by the Federal Deposit Insurance Corporation. Finally, the Trust may also invest in certificates of deposit if issued by a duly chartered commercial bank.

As of June 30, 2024, the Trust was invested in government agency, municipal and corporate bonds, common stocks and mutual funds. Of these bonds that were rated, all ranged in ratings from A to BAA2. The Trust also invested in money market funds that were not rated.

#### Concentration of Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Concentration of credit risk is the risk of loss attributed to the magnitude of the Trust's investment in a single issuer. The Trust places no limit on the amount that may be invested in any one issuer. As of June 30, 2024 and 2023, the Trust held no debt and equity securities in excess of 5% of the Trust's total investments.

#### Custodial Credit Risk - Deposits

For an investment, custodial credit risk is the risk that in the event of failure of the counterparty or bank, the Trust will not be able to recover the value of its investments held in the possession of an outside party. The Trust maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Trust has not experienced any losses in such accounts. Management believes it is not exposed to any significant credit risk related to cash. Cash equivalents include investments in a money market fund that are not federally insured.

Notes to the Financial Statements, continued

### 5. Long-Term Liabilities

Long-term liabilities activity for the year ended June 30, 2024 is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due within one year
Leases payable	\$ 4,593	\$ -	\$ (4,038)	\$ 555	\$ 442
SBITA liability	11,485	-	(11,485)	-	-
	\$ 16,078	\$ -	\$ (15,523)	\$ 555	\$ 442

Long-term liabilities activity for the year ended June 30, 2023 is as follows:

	Beginning Balance	Increases	Decreases	Ending Balance	Due within one year
Leases payable	\$ 10,529	\$ -	\$ (5,936)	\$ 4,593	\$ 4,038
SBITA liability	21,665	965	(11,145)	11,485	11,485
	\$ 32,194	\$ 965	\$ (17,081)	\$ 16,078	\$ 15,523

#### Leases Payable

The Trust has multiple lease agreements involving furniture and fixtures maturing at various dates through September 2025.

The following is a schedule of the required future principal and interest payments on the leases payable as of June 30, 2024:

	Leases Payable	Interest	Total
2025	\$ 442	\$ 11	\$ 453
2026	113	1	114
	\$ 555	\$ 12	\$ 567

#### SBITA Liability

The Trust had SBITAs for cloud-based computing and collaboration products, information technology and cybersecurity services. All SBITAs matured during the year ended June 30, 2024.

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 6. Excess Insurance

For the years ended June 30, 2024 and 2023, the Trust purchased specific excess insurance coverage from Safety National, an "A+" (Superior) rated insurer rated by A.M. Best and Company, for the excess layer of insurance only to cover losses in excess of \$1,500,000 (retention). The Trust must self-insure up to the retention per occurrence limits. For 2024 and 2023, employer's liability loss limitations were \$4,000,000 (retention of \$1,500,000 plus \$2,500,000 of excess insurance). For the years ended June 30, 2024 and 2023, the Trust purchased specific excess insurance coverage from NLC Mutual Insurance Company for the excess layer of insurance only to cover 50% of \$500,000 in loss in excess of \$1,000,000 (retention). The Trust must self-insure up to retention limits per occurrence.

Although the purchase of excess insurance coverage does not discharge the Trust from its primary liability to its members, the excess insurance carrier that assumes the coverage assumes the related liability, and it is the practice of organizations such as the Trust for accounting purposes to treat insured risks, to the extent of excess insurance coverage, as though they were risks for which the Trust is not liable. However, the Trust remains contingently liable in the event its excess insurance carriers are unable to meet their contractual obligations.

Excess insurance premiums ceded for the year ended June 30, 2024 and 2023 were \$1,448,478 and \$1,340,428, respectively. Additional recoveries accrued on paid claims during the years ended June 30, 2024 and 2023 were \$865,806 and \$992,040, respectively. The liability for unpaid losses and loss adjustment expenses has been reduced to reflect excess insurance recoverables on policy case reserves and estimated recoverables on claims incurred but not reported by \$14,769,838 and \$12,856,591 in the years ended June 30, 2024 and 2023, respectively.

### 7. Security Deposit

To satisfy requirements of the Department of Insurance of the Commonwealth of Kentucky, the Trust maintains a security deposit account held under safekeeping with a bank in the amount of \$4,922,461 and \$4,673,001 as of June 30, 2024 and 2023, respectively.

### 8. Related Party Transactions

The following are related entities of the Trust:

- Kentucky Bond Corporation (KBC)
- Kentucky Bond Development Corporation (KBDC)
- Kentucky League of Cities (KLC)
- Kentucky League of Cities Funding Trust (KLCFT)
- Kentucky League of Cities Insurance Agency (KLCIA)
- Kentucky League of Cities Insurance Services Association (KLCIS)
- Kentucky League of Cities Investment Pool Plus (KLCIPP)
- Kentucky League of Cities Unemployment Compensation Reimbursement Trust (KLCUCRT)
- Kentucky Local Government Health Trust (KLGHT)

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 8. Related Party Transactions, continued

The Trust was organized by KLC at the request of the state municipalities. KLC provides substantially all of the Trust's operational, management and administrative services in exchange for an administrative fee based on allocated costs plus a percentage of earned premiums. Total administrative fees under the agreement amounted to \$2,825,988 and \$2,557,470 for the years ended June 30, 2024 and 2023, respectively.

The Trust participates in a marketing agreement with KLCIA which provides that the Trust pay a commission for member accounts marketed or serviced by KLCIA. Commission expense under the agreement was \$407,883 and \$331,958 for the years ended June 30, 2024 and 2023, respectively.

The Trust's directors' and officers' insurance provides coverage for KLC board members. Also, certain trustees of the Trust are directors of KLC.

The Trust reports amounts as being due from or due to related parties. Related party receivables and payables included within the Trust's statements of net position consist of the following as of June 30:

	<u>2024</u>	<u>2023</u>
KLC accounts receivable	\$ 35,019	\$ 166,140
KLCIS accounts payable	(794,944)	(1,819,719)
KLCIA accounts (payable) receivable	<u>(50)</u>	<u>204</u>
Net payable to related entities	\$ <u>(759,975)</u>	\$ <u>(1,653,375)</u>

## KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST

Notes to the Financial Statements, continued

### 9. Liability for Unpaid Losses and Loss Adjustment Expenses

Activity in the liability for unpaid losses and loss adjustment expenses for the years ended June 30, 2024 and 2023 is summarized as follows:

	<u>2024</u>	<u>2023</u>
Net unpaid losses and loss adjustment expenses, beginning of year	\$ <b>33,173,752</b>	\$ 33,780,299
Incurred losses and loss adjustment expenses:		
Provision for insured events of the current year	11,119,000	10,200,000
Decrease in provision for insured events of prior years	<u>(5,183,662)</u>	<u>(2,126,982)</u>
Total incurred losses and loss adjustment expenses	<b>5,935,338</b>	8,073,018
Payments:		
Losses and loss adjustment expenses attributable to insured events of the current year	3,426,512	2,175,450
Losses and loss adjustment expenses attributable to insured events of prior years	<u>5,170,442</u>	<u>6,504,115</u>
Total payments	<u><b>8,596,954</b></u>	<u>8,679,565</u>
Net unpaid losses and loss adjustment expenses, end of year	<u><b>\$ 30,512,136</b></u>	<u>\$ 33,173,752</u>

A decrease in the provision for insured events of prior years signifies that the Trust expects lower than anticipated ultimate losses in the final disposition of claims.

**KENTUCKY LEAGUE OF CITIES WORKERS' COMPENSATION TRUST**  
**Claims Development Information**  
**Years ended June 30, 2015 through 2024**

The following table illustrates how the Trust's earned premium revenue (net of excess insurance) and investment income compare to related costs of loss (net of loss assumed by excess insurance carriers) and other expenses assumed by the Trust as of the end of each of the last ten years. The rows of the table are defined as follows: (1) This line shows the total of each fiscal year's gross premium revenue and investment revenue, premium revenue ceded to excess insurance carriers, and net earned premium revenue and reported investment revenue. (2) This line shows each fiscal year's other operating costs of the Trust including overhead and claims expense not allocable to individual claims. (3) This line shows the Trust's gross incurred claims and allocated claims adjustment expenses, claims assumed by excess insurance carriers, and net incurred claims and allocated adjustment expenses (both paid and accrued) as originally reported as of the end of the first year in which the event that triggered coverage under the contract occurred (called policy year). (4) This section shows the cumulative net amounts paid as of the end of successive years for each policy year. (5) This line shows the latest reestimated amount of claims assumed by excess insurance carriers as of the end of the current year for each accident year. (6) This section shows how each policy year's net incurred claims increased or decreased as of the end of successive years. (This annual reestimation results from new information received on known claims, reevaluation of existing information on known claims, and emergence of new claims not previously known.) (7) This line compares the latest reestimated net incurred claims amount to the amount originally established (line 3) and shows whether this latest estimate of net claims cost is greater or less than originally thought. As data for individual policy years mature, the correlation between original estimates and reestimated amounts commonly is used to evaluate the accuracy of net incurred claims currently recognized in less mature policy years. The columns of the table show data for successive policy years.

		Fiscal and Policy Year Ended									
		2015	2016	2017	2018	2019	2020	2021	2022	2023	2024
(1)	Earned premium revenue and net investment income:										
	Earned	\$ 13,442,044	\$ 14,792,894	\$ 14,211,303	\$ 15,341,744	\$ 16,498,198	\$ 15,774,325	\$ 21,543,662	\$ 8,690,946	\$ 18,351,091	\$ 20,754,681
	Ceded	880,281	851,810	1,168,123	1,217,706	1,041,508	1,116,392	1,085,175	1,200,570	1,340,428	1,448,478
	Net earned	<u>12,561,763</u>	<u>13,941,084</u>	<u>13,043,180</u>	<u>14,124,038</u>	<u>15,456,690</u>	<u>14,657,933</u>	<u>20,458,487</u>	<u>7,490,376</u>	<u>17,010,663</u>	<u>19,306,203</u>
(2)	Unallocated expenses	3,311,946	3,180,640	3,158,843	3,237,164	3,399,535	3,857,208	3,727,388	3,996,335	4,592,387	4,671,591
(3)	Estimated incurred claims and expenses, end of policy year:

**Report on Internal Control Over Financial Reporting and on Compliance  
and Other Matters Based on an Audit of Financial Statements Performed  
in Accordance with *Government Auditing Standards***

**Independent Auditor's Report**

Board of Trustees  
Kentucky League of Cities Workers' Compensation Trust  
Lexington, Kentucky

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*), the financial statements of Kentucky League of Cities Workers' Compensation Trust (the Trust), which comprise the statement of net position as of June 30, 2024, and the related statements of revenues, expenses and change in net position and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated October 14, 2024.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Trust's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust's internal control.

*A deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Trust's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
